Product Description

We are exponentially adapting the digital era and moving our business, daily lifestyle and activities towards the world of internet. Digital Assets are continuously increasing, and thus, there is a massive requirement of securing digital assets and protecting information.

Especially the young generation is getting much involved in social media and are quickly get into online frauds and scams, which sometimes leads to sever crimes and suicide. According to the survey, a considerable amount of youth is a common heard cases are image morphing, sharing private video, spreading adult content and blackmailing over such things. There are many companions stated about protecting sensitive data to aware of the general public.

Digital assets, Privacy, Information & Data, is also a concern of national security. The war is of data these days, and we are hearing a massive data breaches, especially from the year 2018. The most famous companies like facebook. UIDAI got the victim of the massive data breach. Between all this, along with the general awareness of the security practices and protection strategies in the general public, we require to prepare them wit better practices to learn cyber security & defence mechanism which would help them to protect against thefts, frauds and aware other in turn

Cyber Security is the art of Digital Self Defence, the more you practice, the safer you become.

This book aims towards providing the best practices and methodology in the simplified approached, which would help both the technical and non-technical reader to learn and apply effectively. All the methods used are for the defence purpose and didn't intend to spread unethical activities.

Through this book, you would be able to learn about the modern Penetration Testing Framework, latest tools and techniques, discovering vulnerabilities, patching

Table Of Contents

- Disclaimer
- Preface
- Acknowledgements
- About the Author
- Part-1 Building the Base
- Introduction 3
- Working with Git & GitHub
- Operating System Concepts
- Networking Concepts
- Virtualization & Working with Linux Virtual Machine (VM) 40
- Part-2 Information Gathering & Open Source Intelligence 49
- Formal Introduction to Information Gathering
- Information Gathering Tools & Methodologies
- Open Source Information Gathering
- Part-3 Advance Techniques, Scanning & Enumeration
- Advanced Information Gathering
- Network Service Scanning & Advance Scanning Techniques.130
- Enumeration
- Introduction to Vulnerability Assessment
- Bonus Chapter: Additional References & Resources
