

3D Bioprinting Revolution

by Sabrie Soloman

ISBN-13	9789389139082
ISBN-10	9389139082
Edition	First
Format	Both
Publishing Year	2025
Categories	Emerging Technologies, Book Store
Original Price	₹295.00
Discounted Price	₹250.00
Stock Status	In Stock (2 available)

Description

This book provides a comprehensive guide to the principles and optimal applications of 3D bioprinting technologies. It explains the operational basics, along with similarities and differences among various bioprinters. School students, university undergraduates, and postgraduate students in biomedical and life sciences will find this book highly valuable in understanding and exploring bioprinting for real-world applications. It not only builds foundational knowledge in design and implementation but also inspires learners to experiment and create their own biological models. Educators, researchers, and medical professionals will be equipped with the insights needed to advance this revolutionary technology within their institutions and industries.
