

Data Structures & Algorithms

(Knowledge Enhancement Program)

by Munesh Chandra Trivedi, Harivans Pratap Singh

ISBN-13	9789355385185
ISBN-10	9355385188
Edition	1
Format	Both
Publishing Year	2026
Categories	New Arrivals, Computer Science Engineering, Book Store
Original Price	₹725.00
Discounted Price	₹543.75
Stock Status	In Stock (5 available)

Description

My Book of Data Structures and Algorithms in a comprehensive and learner-friendly guide crafted for students, professionals, and aspirants preparing for GATE, competitive coding, and IT interviews. It serves as both an academic companion and a practical reference manual for mastering the foundational and advanced concepts of data structures and algorithm design. Rooted in real-world problem-solving, the book seamlessly blends theoretical clarity with hands-on implementation across languages like C, C++, Java and Python. Designed in alignment with university syllabi and modern industry requirements, this book is ideal for readers at all levels- from engineering undergraduates to working professionals aiming to sharpen their algorithmic thinking. KEY FEATURES OF THE BOOK

- Complete and Structured Coverage
- Concept-Building through Intuition and Examples
- Programming Language Support
- GATE, Coding Interviews & Competitive Programming Ready
- Problem-Solving and Hands-On Practice
- Core Topics Covered in Detail
- Time and Space Complexity Focused
- Visual Learning Aids

- Latest and Trending Concepts
- Academic and Industry Alignment
- Chapter – End Revision Boosters
