

Elements of Polymer Science and Technology

by **O.P. Gupta**

ISBN-13	9789355384560
ISBN-10	9355384564
Edition	1
Format	Both
Publishing Year	2025
Categories	New Arrivals, Chemical Engineering, Book Store
Original Price	₹475.00
Discounted Price	₹356.25
Stock Status	In Stock (6 available)

Description

This book covers the manufacture, properties of important polymers-plastics, rubbers & synthetic fibers. Important Information about various raw materials used for polymer industries, various polymers processing technologies & status of Indian polymer industry are also included. It also contains short questions & answers and multiple-choice questions & answers drawn from the examination papers of various engineering colleges for the benefits of the students. This book is targeted to benefit the following: 1. Diploma in engineering student. 2. Degree in engineering students. 3. AMIE, AMIIM, AMIICHE Students. 4. MSc. & B.Sc. Students. 5. Faculty members and teaching staff. 6. Practicing engineers / Professionals. The scope and coverage of subject matter presented can be gauged from glancing the contents portion of the book to judge its suitability and relevance for a particular target group of reader. Extensive use of internet resources has been made in gathering the relevant information and the subject matter has been presented in a simple, lucid and easy to understand manner for easy grasping of the subject. Latest and updated information /data/ statistics pertaining to the subject matter has been included in this edition for the benefit of the readers.
